

CASE STUDY: *Primary School*

End User:

Institucion Educativa Leon XIII

Line of Business:

Primary School

Location:

Soacha, Colombia

Number:

40 SUNDE 880L Zero Clients

User:

Students

Goal:

“More efficient, cheaper, and easier to upkeep, also can accommodate 40 students with SUNDE when the space was designed for 30 PCs.”

Solution:

SUNDE devices are deployed in the lab to replaces PCs. Each 20 of them are connected to a 2-core I5 host PC.

Achievements:

1. Overcome space and electrical limitations while still provide easy-to-configure Internet workstations for student access.
2. Greatly lower IT cost.
3. Minimize computing support and maintenance time and expense.
4. Increase life span of desktop devices, reduce replacement costs.

Solution Provider

---SUNDE partner Servicios Integrales de Negocios (Colombia)

Limited space and budget for computers is a common complaint in schools around the globe, and Soacha schools are no exception. Replacing existing PCs taxes the school IT budget and increasing the number of computers to meet student and teachers demands means higher electricity costs and more crowded classrooms. Priorities for the school district include space savings as classrooms are small and desk space is at a premium. The educational secretary of that city was also committed to lowering energy costs. Ultimately, he wanted more of their students to have access to internet terminals to access learning software and educational websites. And it has to be affordable and easy to set up and maintain. With his goals in mind, Juan Sebastián Serna, GM of Servicios Integrales de Negocios recommended SUNDE solution. The SUNDE solution’s low cost and ease of use make it the right fit for Soacha schools. SUNDE’s new technology was then introduced to Institucion Educativa Leon XIII and addressed a lot of public attention.

“We sold to them 40 equipments, and they make a big ceremony as inauguration of the new system class room using SUNDE thin clients, even the local TV press came to do an interview,” said Mr. Juan Sebastián Serna, “the person who manages all the schools in that city did like a lot the equipments” “they are very happy with SUNDE and are recommending their use to other schools”.
